"In recent years, many mainland fund managers have begun establishing their firms' presence in Hong Kong. Mainland asset management companies are now ready to face international business and the number of these companies establishing operations in Hong Kong has been increasing, thus making them an integral part of the Hong Kong market. Once the funds are qualified under the mutual recognition of funds, the parent company in China will be allowed to sell Mainland-domiciled retail funds in Hong Kong market," said Ms. Chung in the TV programme.

CompliancePlus offers award-winning proactive and practical compliance solutions and recommendations to private fund managers, hedge fund managers, fund management companies and financial firms and institutions in Asia and the world to help their staff meet their compliance obligations and conform to local regulatory compliance requirements.
